

E4331L- Elipta Compact Outdoor Wall Downlight – Black - 12v MR16

Description

E4331L Elipta Compact outdoor wall downlight is a 12v wall or post-mount model for fixed downlighting and grazing. 12v models operate from a remote transformer. These garden downlights take a range of Led lamps to achieve a variety of garden lighting effects. 3 watt lamps are usually ideal for downlighting from a pergola or grazing down a gate pillar; 5 watts wide beam lamps are often needed for downlighting onto a patio from positions higher up on the house wall. A 12v 3w or 5w led module is a low-energy option. It has a flush lens which sheds water and dirt and is easy to clean. The E4331L can also be used for uplighting.

Electrical data	12v MR16, dimmable with suitable transformer and LED.
Colour/ Finish	Black textured powder coated Aluminium Body.
Exterior Dimensions	Light 103mm x 63mm diameter. Back box 77mm diameter.
