

Elipta E4172N- Compact Spike Spotlight - Rustic Brown - 240v GU10

Description

Elipta E4172N Compact Spike Spotlight is an outdoor garden adjustable 240v spike spotlight typically used for spotlighting focal points, small trees shrub borders. Rustic brown powder-coated aluminium is a traditional recessive colour choice for garden settings. 240v models utilise GU10 lamps which means there is no need for a transformer. It has a flush lens which sheds water and leaf litter and is easy to clean.

Max LED size 72mm not including pins.

Colour/ Finish	Rustic brown powder coated aluminium.
Exterior Dimensions	111mm x 63mm, not including 250mm spike.

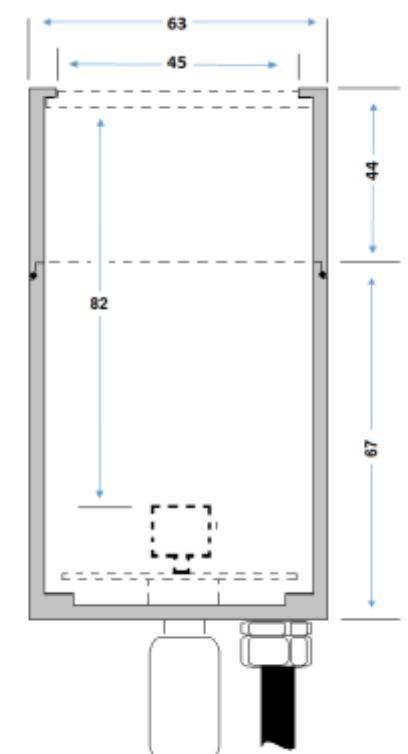

IP65	240v Pre-wired 2m	Beam 15°-110°
Retrofit LED	240v GU10	

Installation guidelines

2 metres of 3 core cable fitted for connection into a weatherproof junction box.

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD. Where a garden lighting installation of more than 12 spike mount or recessed lights per circuit is proposed, we suggest the installation of 12v units with transformers, which results in a significantly higher fault tolerance and reliability in the total installation.

2 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss
