

E7871 Moonray Hanging Downlight – Rustic Brown - MR16 20w

Moonray E7871 is a 12v hanging downlight with a long decorative perforated barrel. It has an open base and can accommodate a clip-on MR16 accessory such as a frosted lens, glare louvre or colour filter.

MR16LED3WW I.e.d. lamp or 20w 38 degree halogen lamp recommended

PHYSICAL DATA

Manufactured from aluminium with a rustic brown powder coat finish, with a powder coated brass mounting ring for hook or strap fixing. The overall height of the light is 215mm with a body diameter of 94mm. The perforated tubular section measures 59mm diameter and 200mm in length, perforated with 182 holes of 3mm diameter.

ELECTRICAL DATA

12v – Requires power from an external transformer

COMPATIBLE LAMPS (purchase separately)

MR16COB, MR16LED, MR16 Halogen
(up to 35w)

INSTALLATION

Tubular section is secured by a small screw. Remove screw to detach the tube section and install the lamp of your choice, and replace the tube section, replacing the screw to secure the tube section to the main body of the light. The use of a screw in hook or strap allows the light to be hung from a pergola or similar structure. Supplied with 1m of twin core H05RN-F 0.75mm² rubber cable

COMPLIANCE & WARRANTY

- 2 year warranty
- CE / RoHS Compliant
