

Elipta E8411L- Waymarker 360 - Stainless Steel - 12v

Description

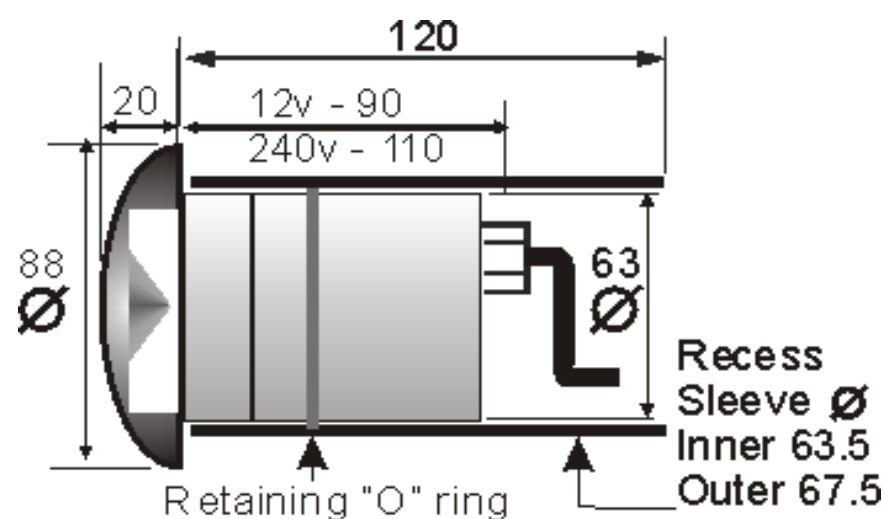

Elipta E8411L is a stylish 12v recessed light with 4 windows providing 360 degree lighting around the top plate. It is useful where you want to cast a corona of light both across a path or drive edge as well as backwards onto planting, lawn or other areas behind. The light is located by an "O" ring on the body into a sleeve tube so that no external screw fixings are visible. It may also be used as a deck light.

Installation guidelines

The plastic sleeve is built into the wall during construction or retrofitted into a hole cut with a coring bit: the light pushes into the tube, where it is held firmly in place by an O-ring, leaving a front plate with no visible fixing screws. Recess depth 120mm. Waymarkers should not be installed in ground subject to waterlogging.

Electrical data	12v MR16, dimmable with suitable transformer and/or LED.
Colour/ Finish	316 Grade Stainless Steel top with powder coated aluminium body.
Exterior Dimensions	88mm diameter stainless steel bezel. Dome protrudes 20mm. Body 63mm x 90mm. Plastic sleeve 67.5 x 120mm.
