

PG7B- Nebula II Spreadlight - 12v - Black

Description

Nebula II spike-mount spreadlight is a Plug & Play 12v G4 retrofit light that provides a soft pool of light for the illumination of paths or steps and around the terrace, drive and lawn. A frosted tube protects the lamp and diffuses the light under the tapered shade to provide low-glare lighting. The shade and frosted polycarbonate tube assembly are easily removed and replaced with a screw action, so tools are not required for changing the lamp. Nebula is supplied with a finned polycarbonate ground spike. It is fitted with a 1.5m cable with IP44 Plug&Play connector for easy installation with our range of Plug&Play transformers and accessories.

Electrical	12v AC Plug & Play, Retro-fit G4 CAPLED LEDs. IP65 with IP44 connectors
Colour/ Finish	Black powder coated aluminium; Finned polycarbonate ground spike.
Exterior Dimensions	550mm tall with shade 150mm in diameter

Installation guidelines

1.5m input cable with male IP44 2-pin input connector to plug into a Plug&Play transformer, extension cable, connector or junction box: an IP68 connection may be achieved by using either the GLWJB IP68 junction box or GLWCC IP68 waterproof cable connector

3 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss.
